

# **PET CBD Special! \$5 OFF**

at Renewal Wellness Clinic

Like humans, pets also have an endocannabinoid system with receptors for CBD. If your pet is experiencing pain, aggression, hyperactivity, sleep issues, or other Vet recommended ailments, you should give CBD a try! Our 200mg Pet CBD will last you for months as most pets need only a few drops. Can be put on food, but most dogs love the natural taste.
